PROFILE

IIT Bombay engineer turned product builder with hands on experience across problem discovery, product strategy, UX, MVP development and execution. Built products independently and led projects end-to-end.

EDUCATION

Indian Institute of Technology (IIT) Bombay – B. Tech, Mechanical Engineering

Nov 2020 – Apr 2024

PROFESSIONAL EXPERIENCE

Assistant Manager – Greaves Cotton Ltd., a diversified Engineering & Mobility Group

Jul 2024 – Present

Assistant Manager (July 2025 – Present) / Graduate Engineer Trainee (July 2024 – July 2025)

Strategy & 0-1	- Led 2 high priority projects end to end, driving strategy, resource planning, execution & investment decisions that reduced delivery Timelines by ~50% Optimized project economics by reducing Costs ~70% & achieving break even on the initial investment within 2 Projects
Dashboard	- Built (solo) an Automated Project Tracking Dashboard (Power Automate + Copilot + Excel) that auto collects daily updates and surfaces schedule status, milestones and bottlenecks to 7 Stakeholders Minimised Status Reporting effort by 66% from ~3 hrs/week to ~10 min/day
Automation	- Automated data Compilation (solo): Built 6 offline Excel tools (pivot/lookup formulas, Ai Assisted) that turn raw data logs into actionable data in the form of instant tables, graphs and debrief summaries for Quicker Analysis - Collapsing 1 week of manual compilation effort into Few Minutes
Enablement	Built reusable systems & enablement for a fast scaling Business (solo): ISO derived SOPs, Onboarding Decks for cross functional teams & 15+ company Market Benchmarking reference for competitive insight

Founder's Office Intern – Chatur Wealth , a Fintech Startup (Algo Trading)

Jun 2023 – Jul 2023

- Originated and drove a **B2C→B2B pivot** end to end (**Solo**, directly with the founder): Diagnosed retail model **Friction** through first principles market and SEBI **Regulatory Research**, then pitched the founder on repositioning the algo product for institutions
- Built the **B2B GTM** from scratch defined the enterprise value proposition and API led offering, ran direct outreach to **75+ financial institutions**
- Closed a Deal with an institutional client of **₹50L in Investment** for Pilot Testing

Digital Marketing Intern – Pranyas , an NGO (Child Education & women's Empowerment)

Jun 2022 – Jul 2022

- Conducted cross platform **Competitor Analysis** across 7 to identify high performing **content strategies** and recommended improvements
- Improved **SEO** performance using **Google Ads keyword** analysis embedding high intent keywords into content to increase Organic Discoverability
- Executed **15+** Targeted institutional outreach for the HOPE campaign, growing brand awareness across colleges through direct engagement

PRODUCT PROJECTS

DoorDirect – Broker free Rental App for Pune | Self-Initiated / Under Pre Launch

- Built** a broker free rental marketplace connecting tenants directly with property owners, taking the product from competitive analysis (NoBroker, MyGate, Airbnb) through **product positioning**, **PRD**, **MVP scoping** and **UI/UX design**
- Designed Hyperlocal Discovery** around user's key locations & Built a functional **React Native/Expo + Supabase** prototype with phone authentication, property listings, database/storage and direct owner tenant communication via WhatsApp using **Claude Code**

Blinkit Product Teardown | Self-Initiated / [Product Deck](#)

- Ran a Product teardown **segmenting users** by jobs to be done × constraint into 5 behavioral modes and mapping each user journey
- Traced **user emotion** to the **design decision** behind it surfacing the app's core moat (first-open reflex) and a zero-CAC cart sharing growth loop
- Synthesized the findings into a **product strategy thesis** (habit lock in) packaged as a case study deck

Groww Gifting – Corporate Gifting for Growth | Self-Initiated / [Working Prototype on Claude](#)

- Identified a **Gap in workplace gifting** and conceptualized an investment gifting feature for **Groww**, enabling recipients to invest or withdraw gifted money instead of receiving traditional cash gifts
- Defined **product requirements** target users, positioning, user flow & **MVP** considering **edge case** logic including KYC & payment failures incorporated **SEBI Aligned** safeguards,built the business case around **low CAC organic acquisition** & increased **investment inflows**

PRODUCT CASE COMPETITION

FinEase – Financial Platform for Gig Workers | [ProdX Case Study](#) · IIT Hyderabad · Ranked 13 / 133 Teams / [Product Deck](#)

- Interviewed **20+** gig workers across 6 **segments** (Zomato, Uber, freelancers) uncovered that **82% face income uncertainty** and **78% face payment delays**; **synthesised findings** into 2 user personas and a prioritised problem backlog using an **impact-effort matrix**
- Designed product concept** with detailed user flows and app screens income dashboard, dues tracker, gig expense logger, govt schemes feed and insurance/loan integrations presented as a full **product deck**

SKILLS & TOOLS

Product: Product Strategy · Problem Framing · Competitive Analysis · User Research · PRD Writing · User Flows · MVP · Roadmapping · GTM Strategy

Data & Analytics: SQL · Python (Pandas) · Advanced Excel · Power BI · Google Analytics

Tech & Prototyping: React Native · Supabase · Figma · Claude / Claude Code · v0 · Vercel · Cursor · Gamma · GenSpark
