PROFILE

IIT Bombay Mechanical engineer turned product builder with 1+ year driving EV product execution at Greaves Cotton, a fintech product internship, and self-initiated product projects. Ability to go from raw user insight to structured problem → solution → working prototype.

PROFESSIONAL EXPERIENCE

Assistant Manager — Greaves Cotton Ltd., R&D (EV Products)

Jul 2024 – Present

Graduate Engineer Trainee → Promoted to Assistant Manager · Pune

Project Execution	- Built a data-driven Dashboard tracking EV milestones, risks, costs & dependencies enabling faster decisions across engineering and business teams - Built a project plan of 60+ validation checkpoints and managed a ₹65L on 3 Wheeler EV project budget splitting work across in-house and external agencies to deliver at minimum cost - Owned end-to-end execution across design, sales, testing and vendor teams tracked every milestone from kickoff to closure, including certification activity at ARAI
Building 0 to 1	Owned end-to-end procurement strategy for a ₹3.65 Cr in-house EV testing lab by translating cross-functional requirements into vendor contracts eliminating external dependency & building long-term capability
Research & Process Design	- Benchmarked competitor EV motors and controllers (2W & 3W) through structured technical analysis created a competitive intelligence report used by sales team for customer conversations - Redesigned EV test report templates from scratch replaced cluttered, unstructured formats with clean templates aligned to top OEM standards, enabling faster data analysis and consistent output across teams

Product Intern — Chatur Wealth , a Fintech Startup (B2B Algo-Trading)

Jun 2023 – Jul 2023

- Secured ₹50L in API led pilot investments by engaging 75+ financial institutions validating B2B product-market fit
- Defined product positioning and B2B GTM strategy: structured API deliverables and enterprise value proposition driving B2C→B2B pivot
- Led market, competitor & regulatory research using first principles analysis to surface B2B opportunity and inform roadmap decisions

Digital Marketing Intern – Pranyas , an NGO (Child Education & women's empowerment)

Jun 2022 – Jul 2022

- Executed targeted institutional outreach for the HOPE campaign, growing brand awareness across colleges through direct engagement
- Conducted cross-platform competitor analysis to identify high-performing content strategies and recommend improvements
- Improved SEO performance using Google Ads keyword analysis embedding high-intent keywords into content to increase organic discoverability

PRODUCT PROJECTS

Groww Gifting — Corporate Gifting for Growth | Self-Initiated / [Working Prototype on Claude](#)

- Identified a cultural shift in gifting from buying a meaningful object → UPI transfers and saw an unmet space: Gifting Wealth for who invests
- Translated this insight into a native Groww feature covering full peer-to-peer gifting flows occasion context, group pooling, SEBI-compliant, privacy controls and a MVP going from self-identified problem to structured product deck and prototype
- Built a interactive prototype matching Groww's design language using Claude AI demonstrating across problem discovery, solution design

FinEase — Financial Platform for Gig Workers

ProdX Case Study · IIT Hyderabad · Ranked 13 / 133 Teams

- Designed product concept with detailed user flows and app screens income dashboard, dues tracker, gig expense logger, govt schemes feed and insurance/loan integrations presented as a full product deck
- Interviewed 20+ gig workers across 6 segments (Zomato, Uber, freelancers) uncovered that 82% face income uncertainty and 78% face payment delays; synthesised findings into 2 user personas and a prioritised problem backlog using impact-effort matrix

TripSync — Collaborative Group Trip Planning Tool | Self-Initiated / [Working Prototype on V0](#)

- Designed and shipped a working web prototype on Vercel with core features: shared trip space, group checklist, expense tracker, itinerary planner, and document storage built using AI tools
- Identified that group trips fail due to coordination chaos plans scattered across WhatsApp, Splitwise, Notes and Google Docs no single source of truth for 3–10 person friend groups

EDUCATION

Indian Institute of Technology (IIT) Bombay — B.Tech, Mechanical Engineering

Nov 2020 – Apr 2024

LEADERSHIP

Mess Secretary, Hostel 3 — IIT Bombay

Oct 2021 – May 2022

- Managed a ₹20 lakh budget and coordinated with 30+ vendors to deliver large-scale hostel events and dining operations
- Collaborated with the mess council to plan & execute community events including tea parties, gala dinners and special lunches over a 6-month term
